The New Tariff Bill.

Conference Report Completed
and Read in the House.

CHANGES MADE IN THE MEASURE

The New Law Will Go Into Effect the
Sixth of October of the Present Year.
Senate and House Proceedings—Other
Washington Dispatches.

WASHINGTON, Sept. 27.—The con-
ference report on the tariff bill completed
yesterday provides that the new law
shall go into effect Oct. 6, 1890.

The senate reciprocity feature is pre-
served in the bill, but the date for it to
go into effect has been changed from
July 1, 1891, to January 1, 1892.

The duty on binding twine of all
kinds is put at seven-tenths of a cent
per pound, and the provision for this
article is made to apply to binding
twine made in part fromistle or tam-
pico fibre, manilla, sisal grass or sunn.

The sugar schedule provides that all
sugars not above No. 16, Dutch
standard, all tank bottom, all sugar
drainings and sugar sweepings, sirups
of cane juice, melada, concentrated
melada and concrete and concentrated
molasses, and molasses shall be placed
on the free list. This is the house
provision subject, however, to the restric-
tions of the reciprocity feature which
empowers the president to suspend the
free admission of sugar, molasses,
coffee, tea and hides under certain con-
dition.

The conference changed the time for
the bonded period to go into effect
to Feb. 1, 1891. The provision relative
to the bonded period allows merchandise
deposited prior to Oct. 1, 1890, to be
withdrawn at the present rates of duty
before the time the period goes into
effect. It is also provided that when
duties are based upon the weight of
merchandise deposited prior to Oct. 1,
the duties shall be levied upon the
weight of the merchandise at the time
of its withdrawal.

In the internal revenue features of the
bill, nearly all the house provisions of
the bill are restored. The provision re-
moving all restrictions on farmers and
growers of tobacco, in regard to the sale
of leaf tobacco are restored, and a pro-
viso added that the farmers shall fur-
nish on demand of any internal revenue
officer a statement of his sales, etc. A
fine of \$500 is provided for violation of
this provision.

The conference committee struck out
senate amendment providing for a
tariff commission.

The tax on smoking and manufac-
tured tobacco, and on snuff is placed at
six cents per pound.

Opium manufacturers are taxed \$10
per pound upon opium manufactured
in the United States for smoking pur-
poses, and only persons who are citizens
of the United States are permitted to
engage in its manufacture.

The senate amendment providing that
all special internal revenue taxes shall
become due July 1, 1891, is retained.

In the free list a number of changes,
most of them of no material interest
were made. Raw and manufactured
bristles were stricken from the free list
in conference.

The house provision placing on the
free list American-caught fish, except
salmon caught by American ves-
els, etc., is inserted. The senate provision
concerning pure mineral waters is al-
lowed to remain. The paragraph cov-
ering ores of gold, silver and nickel
and nickel matter is retained with a proviso
that the duty on the copper contained in
them shall be one-half cent per
pound.

Among the senate amendments agreed
to by the conference committee are
those covering plaster of paris and sul-
phate of lime unground, potashes, seeds
and sulphuric acid, not over one and
three hundred and eighty thousandths
specific gravity.

The conference amended a number of
the free list provisions, inserting in the
bill paragraphs providing for the free
admission of feathers and down for
beds, peltries and other usual goods of
Indians passing the boundary line of the
United States, tin ore, cassiterite and
tin in bars, blocks, pigs or granulated
until July 1, 1893, and thereafter as
otherwise provided for; works of art by
American artists residing temporarily
abroad.

The sugar schedule is amended so as
to grant a bounty of one and three-
fourths cents per pound on sugar testing
between 80 and 90 degrees polariscope
test, and two cents on sugar testing not
less than 90 degrees from July 1, 1891,
to July 1, 1905 (the bill as passed by
house and senate granted a bounty of
two cents a pound to sugar testing 80
degrees and over). The conferees
agreed to the senate amendments ex-
tending the bounty to maple sugar, and
providing that no bounty be paid on
less than 500 pounds. Sugar above No. 16
Dutch standard is to pay five-tenths of
a cent additional if the country exporting
or producing it charged an export duty.
Machinery for the manufacture of beet
sugar is to be admitted free until July
1, 1892, and any duty collected on such
machinery imported since Jan. 1, 1890,
shall be refunded. Glucose is retained
at the house rate—three-fourths of a
cent per pound.

The sugar schedule is made to take
effect on April 1, 1891, with a proviso
that during the month of March sugars
may be refined in bond without payment
of duty, and transported in bond and
sold in bonded warehouses under the
provisions of existing laws.

The schedule covering imported to-
bacco and manufactures of tobacco is
left as it passed the senate.

In the earthenware and glassware
schedule the house conferees succeeded
in retaining nearly all of the house
items intact. Fancy glass is made duti-
able at 60 cent per ad valorem; colored
glass bottles at one cent per pound for

pints, one and a half cents for quarters
and fifty cents per gross for bottles
holding less than a quarter of a pint.

Most of the house provisions relating
to the metal schedule are also re-
tained.

The cutlery schedule remains sub-
stantially the same as it passed the
house, with unimportant senate amend-
ments. The reduced rates of the senate
on fire arms are retained, as are also the
reduced rates of the senate on copper.

In the spirit schedule, brandy, cor-
dials, liquors, etc., and spirituous bev-
erages or bitters containing spirits are
made dutiable at \$2.50 per proof gallon;
bay rum, \$1.50 per gallon; champagne
and all other sparkling wines, \$8 per
dozen in quart bottles; ale, porter and
beer in bottles, forty cents per gallon.

The rate on undressed flax is fixed at
one cent per pound; on tow of flax or
hemp one-half cent per pound; on cab-
les, cordage and twine, except binding
twine composed wholly and manilla or
sisal grass, one and a half cents per
pound; on cables and cordage made of
hemp, two and one-half cents per pound
tarred, three cents per pound; cotton
bagging valued at not more than six
cents per square yard, one and six-tenths
cents; valued at more than six cents,
one and eight-tenths cents.

The important changes made by the
senate in the wool schedule were al-
lowed to remain. These provide that
the duty on woolen and worsted yarns
made of wool worsted, or the hairs of
animals, valued at not more than thirty
cents per pound, shall be dutiable at
two and a half times the duty imposed
on unwashed wool of the first class, and
in addition 35 per cent ad valorem, and
the duty on woolen or worsted cloths of
the same standard shall be three times
the duty imposed on unwashed wool of
the first class.

Senate and House Proceedings.
WASHINGTON, Sept. 27.—The senate
agreed to the conference report on the
bill to establish Rock creek park in the
District of Columbia. House bill ap-
propriating \$1,000,000 to purchase
nickel for armor plate was debated
without action, as were also the bill to
amend the law to prohibit the importa-
tion of laborers under contract and the
bill to establish a United States land
court. Several unobjectionable bills
were taken from the calendar and
passed.

The house passed a resolution ap-
pointing a subcommittee of five from
the world's fair committee to investi-
gate progress in world's fair matters. A
resolution was passed ordering an in-
vestigation of the charge that the house
postmaster keeps on the rolls at \$100 a
month one Bradley, an employee of the
government printing office, who, it is
said, pays \$95 a month to the postmas-
ter's son.

A number of bills were taken from
the calendar and passed. Mr. McKin-
ley presented the conference report on
the tariff bill, and gave notice that he
would call upon it immediately after
the reading of the journal.

The reading of the report was in pro-
gress when the house took a recess.
The evening session was devoted to con-
sideration of private pension bills.

Education of Canadian Indians.
WASHINGTON, Sept. 27.—Bishop
Sharkey, of North Dakota, called on the
secretary of the interior yesterday in
company with Assistant Indian Com-
missioner Belt, to protest against the ac-
tion of the Indian bureau, in closing
two schools conducted by the Catholics
in the Turtle Mountain reservation in
North Dakota. The reasons assigned
the Indian bureau for this action is that
the government schools established, and
about to be established in this locality
furnished sufficient school accommoda-
tions for all the Indian children entitled
to the care of the government.

The bishop maintained that the church
schools were needed, and said that closing
up upon such short notice as had been
given, was unjust and would result in
financial loss. The secretary has the
question under consideration. It is prob-
able that in the investigation of this
matter, the old question as to whether
a large number of the Indians on that
reservation properly belong in the
United States or in Canada will be re-
vived. It is claimed that a number of
Canadian half-breeds cross the line in
winter and live at the expense of the
government.

That Unruly Doorkeeper.
WASHINGTON, Sept. 27.—The house
committee on judiciary, to whom was
referred the resolution introduced in
the house by Mr. Enloe, of Tennessee,
charging one of the doorkeepers of the
house with using violence in trying to
stop him leaving the house, yesterday
reported it back to the house adversely.
The doorkeeper charged with the offense
claims that he simply laid his hand on
Mr. Enloe's shoulder, and reminded him
that it was against the rules to leave
the house during a call of that body.
The committee after a careful
consideration of the resolution could
find no reason for granting it.

Thomas Jefferson's Manuscripts.
WASHINGTON, Sept. 27.—The house
committee on the library yesterday au-
thorized a favorable report on the sen-
ate bill appropriating \$50,000 for the
purchase of the manuscript papers and
correspondence of Thomas Jefferson, in
possession of his descendants.

Mysteriously Mangled.
ANDERSON, Ind., Sept. 27.—Clark
Odum, who left the house of John Ken-
yon, near this place, about 9 o'clock
Wednesday night, in a buggy, re-
appeared a couple of hours later on foot,
with his nipper lip torn off, his teeth
gone and his jaw crushed in, and unable
to give an account of himself. The
horse and buggy have not been found.

Arm Broken by a Train.
NORWALK, O., Sept. 27.—While cross-
ing the Lake Shore railway track at the
East Main street crossing yesterday
Professor Charles S. Royce, teacher of
gymnastics in Boston schools, was
struck by an incoming passenger train
and his right arm was broken.

Condition of Business.

Dun & Company's Weekly Re-
view of Trade.

AN EASIER MONEY MARKET.

The United States Treasury Paid Out
During the Week Nearly Thirty Million
Dollars—An Activity in All Branches
of Legitimate Trade.

NEW YORK, Sept. 27.—R. G. Dun &
Company's weekly review of trade says:
Treasury disbursements for bonds and
silver and prepayments of interest have
reduced balances by nearly \$30,000,000,
but the enormous supply of currency
has not as yet inflated prices at all. The
local rate for money on call has de-
clined from 4 to 3 per cent., and an
easier market is reported at Boston,
Philadelphia and Chicago. But the
great foreign banks continue to lose
gold, England and France reporting a
loss of \$4,000,000 for the week.

With lower prices, there appears the
desired improvement in exports of
products, and the decrease for the past
three weeks is now only 4.7 per cent.,
comparing with last year. The im-
ports are much enlarged by effort to
get goods into the country before a new
tariff goes into effect, but the current
accounts of such increase are exagger-
ated; the value of all imports for three
weeks has been but 15 1-2 per cent.
above last year's record.

Reports from other cities show a re-
markable activity in all branches of
legitimate trade. Boston reports more
trade with easier money, and excep-
tionally large sales of wool, reaching
650,000 pounds.

At Philadelphia the shoe and leather
trades are exceptionally good, and the
iron trade improves. Chicago notes a
heavy decline in grain receipts com-
pared with last year. Cincinnati also
reports quite a good trade and fair
crops. At Cleveland trade is good, and
at Pittsburgh it holds prices firmly,
though there is a slight weakening in
pig iron. Milwaukee reports trade much
in excess of last year's, and Detroit also.
At Minneapolis lumber has advanced
fifty cents, while wheat is unsettled,
with receipts of 1,100,000 bushels. Kan-
sas City reports steady trade, and Savan-
nah notes general activity with firm
prices for staples.

Though money is very active at some
points, and rather stringent at many,
the volume of business does not seem to
be anywhere curtailed thereby, and the
reports as to collections are much more
favorable than usual.

The business failures occurring
throughout the country during the last
seven days, number, for the United
States 196, and for Canada 27, or a total
of 219, as compared with a total of 190
last week, and 193 the week previous to
the last. For the corresponding week of
the last year the figures were 172,
made up of 165 failures in the United
States and 27 in the Dominion of
Canada.

IN EARNEST.

The Frenchmen Who Propose Reaching
the North Pole by Balloon.

NEW YORK, Sept. 27.—Advices from
Paris say that Monsieur George Besan-
con, director of the Superior School of
Aerial navigation, and Monsieur
Gustave Hermite, the celebrated astron-
omer, are really in earnest in their in-
tention to make an endeavor to reach the
north pole in a balloon. Although the
scheme has been criticised as visionary
by several influential scientific French
papers, leading scientists in Paris
are said to have subscribed a fund of
half a million francs for the use of the
two intrepid voyagers, and the trip will
be undertaken early in the coming year.
The point of departure is Spitzbergen,
and the balloon will have a cubic ca-
pacity of 14,121 metres, and is to be
filled with pure hydrogen. It will there-
fore be more than ten times larger than
the largest balloon with which any
aeronaut has ever ventured into the
regions above.

COLLISION ON THE B. & O.

A Boy Roasted to Death Before His
Father's Eyes.

DEFIANCE, O., Sept. 27.—The east and
westbound freights on the Baltimore
and Ohio collided at Midway Switch,
three miles east of here, at 4 a. m.
Thomas Benson and son, aged 11, were
in the car next to the engine. They
were emigrants from New Straitsville,
Perry county, O.

The next car was an oil tank, which
crashed through Benson's car and ex-
ploded. The boy was literally roasted
before his father's eyes. Several cars
were burned and the two engines ruined.
The conductor of the west-bound train
had orders to sidetrack for the east-
bound, but disregarded the orders.

A City Imperiled.

SOUTH BEND, Ind., Sept. 27.—This
city is at present in peril on account of
a break in an old flume which furnished
water running the large water wheels
which drive the three big water supply
pumps. By the breakage the pumps
are without power and useless. The
water supply is now furnished by one
steam pump capable of keeping the 225-
foot stand-pipe nearly full, unless a fire
of large proportions occurs. Should
the steam pump break or give out in
any way the city would be left without
fire protection.

Cutting at a Silver Wedding.

CANTON, O., Sept. 27.—At Millport,
while a party was celebrating the silver
wedding of Aug. Thorskey, two of the
guests, Fred. Harmon and Edward
Kemp, became engaged in a discussion,
when Harmon cut Kemp in the breast,
inflicting injuries which will probably
prove fatal. Kemp's wife interfered
and was also

M'AUUFFE-SLAVIN FIGHT.

Slavin Declared the Winner in the Second
Round.

LONDON, Sept. 27.—The Ormonde
club rooms were crowded last night
with expectant spectators of the Mc-
Auliffe-Slavin fight, which came off
early this morning. The Australians
present cheered McAuliffe as he entered
the ring.

FRANK E. SLAVIN.

The fight began at 5:05 a. m.
and lasted six and three quarter
minutes. Both men advanced
promptly to the center of the ring at
the call of "time." After preliminary
sparring Slavin let off rather low with
his right. This was returned by one
from McAuliffe with the left, which
missed its mark, but he followed it up
quickly with another left hander, which
was a good one; and also got in some
telling right hand blows. McAuliffe
also had decidedly the better of some
exchanges which followed. When they
broke McAuliffe landed powerfully with
his right on Slavin's chest, but Slavin
promptly retaliated; whereat McAuliffe
came to ground.

In the second round the Australian
got his work in, and after several blows
gave McAuliffe a clean knock-down. It
took the Californian some time to re-
cover. Slavin was thereupon declared
the winner.

HUNTED DOWN.

Schreiber, the Columbus, Indiana, Bank
Robber, Caught in Detroit.

COLUMBUS, Ind., Sept. 27.—William
H. Schreiber, aged 25 years, book-keeper
of the First National bank of this city,
who on Nov. 28, 1888, succeeded in
stealing about \$300,000 in cash and
securities from the vaults of the bank
in this city, and fleeing to Canada, is
now in the hands of the United States
authorities at Detroit. Young Schreiber
was raised in this city, was of good
family and habits until led astray by a
fast woman of Chicago.

Young Schreiber's defection was
not discovered by the bank officials here
until on the morning of the 30th,
Thanksgiving Day intervening, when
Capt. W. G. Lucas, president of the
bank, started in pursuit of the fugitive.
At Detroit he took the same train and
without knowing it, occupied a berth in
the same sleeper with the young fugi-
tive, who had taken the precaution to
cut his hair closely, shaving the top of
the head to make it appear naturally
bald.

From young Schreiber President
Lucas secured a part of the stolen
money and an order for the securities
deposited in the safety vaults of the
Merchant's Exchange bank, of Mil-
waukee.

Young Schreiber remained in Canada
with the good looking young woman
who had led him astray, until quite re-
cently, when from dissipation and an
overdose of morphine she died.

Wary of life in Canada, young
Schreiber visited Detroit, where he was
known to be, but it was hard to locate
him. The detective who has been on
his track for almost two years suc-
ceeded early this morning in placing him
under arrest on American soil. During
the forced absence of young Schreiber
from the United States he has spent his
time at Toronto at leisure, after having
run a schooner on the lakes in the season
of 1889.

Cashier L. N. Ong and Attorney
Charles S. Baker left this city this evening
for Detroit in response to a telegram
from the chief of police of that city, and
will bring him here for trial.

Stock Yards Strike Over.

CHICAGO, Sept. 27.—The strike at the
stock yards among the engineers seems
to be over, for the present at least.
The two Quincy engines, which were
the bone of contention, commenced
working yesterday morning at 7 o'clock
with new crews sent out by the Quincy
road. The engineers claim a victory
and say they are Brotherhood men.
This Superintendent Law denies and
says they are men who went to work
for the Quincy road after Chief Arthur
declared the strike off. Everything is
moving smoothly at the yards.

Training Ship Arrives.

PHILADELPHIA, Sept. 27.—The train-
ing ship Saratoga arrived at the Dela-
ware breakwater early this morning
and is expected to come up to the city
some time during the day. All are
well on board.

Seized for Smuggling.

OTTAWA, Ont., Sept. 27.—The schooner
De Costa, owned at Arichat, N. S.,
has been seized at Summerside, P. E. I.,
for smuggling.

DEMOCRATIC TICKET.

For Congress,
HON. THOMAS H. PAYNTER,
of Greenup County.

It has come to light that Senator Ingalls has been charging 18 per cent. interest on some loans to Kansas farmers. No wonder they are kicking.

MR. BLAINE'S reciprocity proposition to the South American countries is: Let our flour and pork in free, and we will let your sugar and hides in free. What is that but free trade, and none the less so because reciprocally free?

"DEMOCRATIC organs have in a large measure stopped their wail over the enormous surplus in the Treasury," says the Chicago Inter-Ocean. Well, there's not enough of it left to talk about. The Republicans have spent it all.

It is very likely that Kentucky will have but one election day annually, that to be a holiday, under the new Constitution. Undoubtedly there should be fewer elections in this State. One contest is not closed before another is commenced.

THE Maysville Republican fails to point out a single instance where a passenger has ever been killed in a wreck on the Maysville Division of the Kentucky Central. As usual, it shirks the question, and devotes its space to senseless jabber about the BULLETIN.

CINCINNATI postoffice officials yesterday seized the entire weekly edition of the Volksfreund of that city for printing lottery advertisements. There's no danger of anything like this happening to our neighbor down the street. "This is no lottery," he says, and then the editor and the postmaster are one and the same.

THE Republican conferrees on the McKinley bill have concluded that binding twine should not be placed on the free list, and have fixed the duty at seven tenths of a cent per pound. The twine trust had to be protected, you see. What do the Republicans care for the farmers of the great wheat growing States? They don't contribute to the G. O. P.'s corruption fund and the twine trust does, if half the reports are true.

If you will observe, the Republican hasn't anything to say to-day about the collector system on the C. & O. He tried to run it down a week ago, getting behind an alleged "drummer" to do so, but when he attacked a system that is in use on most all the trunk lines of the country he showed his ignorance and made a mistake, and has found that out. He hasn't the manliness to say so, however, but, avoiding all reference to the his original subject—the collector system—he devotes his space to slurring and abusing "Justice" who in his communication to the BULLETIN showed up the Republican's ignorance.

THE Republicans down in the Eleventh Kentucky district are having a very animated Congressional contest, and the indications point to lively times in the convention, which will be held next week at London, Laurel County. Finley will go into the convention with twenty-nine instructed votes uncontested, and thirty-seven contested votes. Wilson will have fifty instructed and uncontested votes, with thirty-three contested. Boreing has twenty-one uncontested and four contested votes, and Nell has twenty-three clear votes, but may secure the vote of Pulaski County also. With all these contests to settle, don't be surprised if you hear of a big "wow and wumpus," and two or three nominations.

VERMONT FARMERS.

Why They Are Leaving the Republican Party and Becoming Democrats.

George H. Hirsch, who was reared on a farm in Vermont, and who remained in the Green Mountain State until his desire for a greater opportunity to accumulate wealth than was afforded by the farm lands of New England, induced him to go West, where he has been very prosperous, just returned from a visit to his old home. "I was a Republican when I left Vermont," said he to the New York Star, "and my father was an uncompromising Republican, and when the farmers gathered in town and talked politics, like hundreds of other Vermont farmers, he could see no virtues in Democracy and no faults in Republicanism. I have, since I located in the West, voted the Democratic ticket on a number of occasions, and since the Presidential election in '84 I have voted that ticket regularly. I became a Democrat on the tariff issue. It was easy for me to change. I was among progressive people, and naturally absorbed the idea of the progressive party, and I had never been a New England Abolitionist in the days when the New England farmer thought slavery a worse crime than the old school Methodist thought dancing and card playing. "I was at home the other day when the election was held. You can imagine my surprise when I found my father and uncles and several of their neighbors openly advocated and voted for the Democratic candidates. A change like this in old farmers who never go away from home, and who are almost as firmly set in their political as they are in their religious opinions, was remarkable, and must have some far-reaching and deeply grounded cause. I set about to try and find this cause, and I found it. You see, the Vermont farmer has lost ground, instead of improving his position, during the last decade of years. Every year he lives he is growing poorer, no matter how hard he may work, and this forces him to look for the reason. He has made up his mind that the heavy tariff exacted by the Government is responsible, and, as self-preservation is the first law of nature, he has gone to work to protect himself, and to do that he votes with the party which promises to reform the tariff laws. Hundreds of Vermonters have left the State in order that they may be able to make a living, and those who remain are becoming Democrats.

"Converts are being made every day. The farmers, backed up by the conditions which surround them, are doing the work. No political speeches are needed. The conditions of the people are eloquent and persuasive. Two years hence, when the National election is held, the Republicans will find that Vermont and other New England States will need all their exertions to keep them in line for the G. O. P., and I very much doubt if they can do it, no matter how much they labor."

THE indications are that Congressman Cannon's vulgarity will retire him from the House. Fifteen Republican papers in his district are opposing him in his contest for re-election. Even the Danville Daily Commercial, the leading Republican journal in Cannon's own town, repudiates its "Joe." It is significant that this paper, which has supported Cannon for eighteen years, yielded to the wishes of its readers. A man who will resort to such language as that used by Cannon deserves to be defeated.

THAT the recent census was grossly inaccurate is conceded by many Republican journals. In many places the blundering and negligence were scandalous and inexcusable. Some of the prominent citizens of New York and their families were overlooked, Jay Gould being one of them. It is claimed that 200,000 people were not enumerated in New York City. Such carelessness and blundering make the census wholly unreliable.

At the Churches.

Elder Lucas will preach at the Christian Church to-morrow at 11 a. m. and 7:30 p. m.

Central Presbyterian Church—Preaching Sunday at 11 a. m. and 7:30 p. m., by Rev. B. W. Mebane.

The pastor, Rev. Thomas Hanford, will conduct services at the Third street M. E. Church to-morrow at the usual hours.

There will be preaching at the Baptist Church to-morrow at 11 a. m. and 7:30 p. m. by the pastor, Rev. W. J. E. Cox.

Services at the First Presbyterian Church to-morrow, both morning and at night, at the usual hours, conducted by the pastor, Rev. J. S. Hays, D. D.

The services at the Church of the Nativity to-morrow will be: Holy communion at 9:30 a. m., Sunday school at 10, morning prayer at 11, evening prayer at 7:30 p. m.

There will be preaching at Washington in the Presbyterian Church by the pastor, Rev. W. T. Spears, Sabbath morning at 11 o'clock, and at Murphysville at 3:30 in the afternoon.

River News.

The Andes passed down last night at 10 o'clock, over a day behind time.

The Bostona is the Sunday morning packet for Cincinnati, and the Scotia the Sunday evening. Due up to-night: Bonanza for Pomeroy and Hudson for Pittsburg.

Railroad men ought to quit talking about the "river business running to seed," when a little towboat goes galloping down the Mississippi river every few days with about 150,000 bushels of corn, as many more of wheat, and from 15,000 to 20,000 packages of miscellaneous freight. It is such trips as these that makes a railroad man "tired."—Courier-Journal.

The Railways.

Five engineers on the Big Four received \$225 each as their pay for the month of August.

Trains will be put on the R., N., I and B. road between Versailles and Richmond next week.

President Ingalls, of the C. & O. and Big Four, was here yesterday for a short time. He was accompanied by General Superintendent Stevens and L. B. Jackson, Chief Engineer.

The Enquirer says: "It is said that Oscar G. Murray, Traffic Manager of the Chesapeake and Ohio and Big Four, will in the near future sever his connection with these roads." It is understood that the office is to be abolished.

Here and There.

He has been shown seventy-five times and has taken seventy-five premiums, aggregating \$1,800. He defeated the celebrated model Jerome Turner at Winchester, and a number of grand ones at the Richmond fair.

SOME MINER MATTERS.

Not minor matters, mark you.

The matters we have in view are far from being minor or unimportant. But of course you understand the point.

Miner Matters Are Shoes.

Nobody in Maysville can think of MINER without thinking of Shoes. What we want is that nobody in Maysville think of Shoes without thinking of MINER. We want them to think

Miner Sells Good Shoes.

But we don't want them to say regretfully, "Yes, but I can't afford to buy good Shoes."

That's the way of it.

Lots of people think that a good Shoe, such as we sell, must be an expensive luxury. We want it remembered that our GOOD shoes are as cheap as not-good Shoes, price against price. And when quality is considered, our good shoes are cheaper than not good Shoes.

Know everybody that

No Further Trouble at Tipperary.

THE EXCITEMENT DYING OUT.

Special Precautions Have Been Taken to Guard Against the Possibility of Another Outbreak—Other Foreign News.

DUBLIN, Sept. 27.—People thronged the streets of Tipperary until a late hour last night discussing the conflict between the police and populace and the former's brutality. The case against the arrested Nationalists has made but little progress. Last evening the Nationalists had a long conference, and it was decided to make a further attempt to bring Police Sergeant Kennedy to task for his brutal use of the club in front of the court house.

The situation is more tranquil at Tipperary than the previous day. Crowds of people still throng the streets. They seem to be laboring under suppressed excitement but there has been no collision with the police. Special precautions have been taken by the authorities to guard against the possibility of an outbreak. The space in front of the court house is held by a strong guard, and both soldiers and police are patrolling the streets.

The session of the court for the trial of the conspiracy cases lasted only a few minutes. When the hour for opening came the presiding magistrate announced that it would be impossible to go on with the cases as the judge of the county court required the building. It would be necessary therefore to adjourn further proceedings until the afternoon.

Before the magistrate could declare the court adjourned, Timothy Healy sprang to his feet and in the name of the defendants entered an earnest protest against the adjournment for the reason given. It was not right, he urged, that the magistrates in such a case should suit their actions to the convenience of the county court. The judge of that tribunal should be the one to yield, instead of insisting on the letter of his rights in the premises. Men had been brought to Tipperary far from their homes for trial. They had a right to expect that the trial would be as expeditious as possible. It was becoming more and more manifest, Mr. Healy declared, that the defendants were being treated with every discourtesy the authorities could devise. Mr. Healy's protest was unavailing. As soon as he resumed his seat the court adjourned.

Ordered to Zanzibar.

LONDON, Sept. 27.—A British man-of-war has been ordered to proceed from Zanzibar to Viti to inquire into the recent massacre there of a German merchant and seven German employees by the natives. The report that Germany had demanded satisfaction and compensation from England for the killing of these German subjects is semi-officially denied in a dispatch from Berlin.

Effect of a Duel.

PARIS, Sept. 27.—M. Mermeix, editor of Cocarde and the author of Figaro's stories respecting Gen. Boulanger, received a wound over the heart during one of his recent duels. At the time he considered the wound trifling and little attention was paid to it. He is now confined to his bed with a heavy fever, the result of the wound, and it is feared peritonitis will set in, causing his death.

Vessel Founders.

CONSTANTINOPLE, Sept. 27.—The families of the members of the crew of warship Ergotoul, who lost their lives by the recent foundering of that vessel at sea, have been granted double the usual pensions by the sultan.

LOSSES BY FIRE.

Destructive Blaze at Barrowville, Mass.

Other Fires.
ATTLEBORO, Mass., Sept. 27.—A. T. Pierce's cotton yarn mill at Barrowville was burned to the ground this morning, together with a tenement house, caused a loss of \$75,000. The buildings were three-story structures. The main building was erected in 1810 for the manufacture of cotton cloth, being one of the first cotton mills in Massachusetts.

After the failure of the Stafford Manufacturing company, in 1884, this firm having operated the mill about ten years, Mr. Pierce bought the property and has since done a prosperous business, having an output of 12,000 per month. The mill had 10,000 spindles and employed 135 hands. There had recently been added considerable machinery and this, with a Corliss engine and Hercules water wheel, was destroyed. Insurance, \$40,000. Mr. Pierce states that the fire will ruin him.

Lumber Plant Burning.

MINNEAPOLIS, Sept. 27.—An Ashland special to The Tribune says: At 5 o'clock yesterday afternoon the J. R. Davis Lumber company's plant at Phillips, Wis., was reported burning and will probably be entirely destroyed at a loss of several hundred dollars, as a heavy wind is blowing. The Ashland fire department received a telegram from Phillips asking for help. An engine and hose cart were put on a special train and sent down at seven miles an hour.

Fire in New York.

New York, Sept. 27.—A fire early this morning in the four-story brick building 315 West Sixteenth street, gutted the place from cellar to roof. The building was occupied by Morris Rutens as a fur dressing establishment; W. F. Cooper and L. Franson, manufacturers of silver plate and jewelry, and J. F. Palmer & Son, gas fixture factory. The total loss is \$300,000, including \$51,000 on the building, all covered by insurance.

CHICAGO, Sept. 27.—A compromise has been effected between the Illinois Central railroad and the trainmen who made a demand a few weeks ago for an increase of wages. The matter was settled, both sides conceding points.

AN EXCITED CHILIAN.

He Predicts a Great Tare-Up Shortly in the Republic.

NEW YORK, Sept. 27.—Senor Juan Barotti, of Santiago, Chili, who has just passed through New York, has been a member of the Chilean congress and is well informed on matters along the southwestern Pacific coast.

"We are going to have a revolution in Chili, and that before very long," said he, "and I would not be surprised if it should turn out to be a very bloody one. There are a great many people in the United States interested in Chili, for there is a large amount of American capital invested down there, yet there is a phenomenal amount of ignorance about our country and its condition just now.

"The truth is that a bitter contest has grown up between the president and congress and unless prompt measures are taken to settle the matters bloodshed will be the result. The chamber of deputies has passed laws which practically cut off the supplies of the government, and the president has responded by taking charge of the government moneys on deposit in the various National banks and as this sum amounts to \$7,000,000 the president and his advisers feel financially pretty safe. But the congress will demand the deposit of this money in the National treasury, subject to the laws made by the representatives of the people. The president is a brave man and has the army with him, but congress has public sentiment almost unanimously in its favor.

"The whole strife would cease if the president would choose a new cabinet, the members of which would be in accord with the majority in congress. But the president will not do this, and before long the world will learn the result. There will be bloody civil strife and he will be dead or driven from the country, or its absolute dictator."

TRICKY THEOSOPHS.

They Seem to Be Successfully Working the Nibbles in 'Frisco.

SAN FRANCISCO, Sept. 27.—Professor Hiram Erastus Butler, who was exposed by the Boston Theosophical society a year and a half ago, is now a resident in this city. Butler is using his influence over weak-minded young men and women under guise of a species of theosophy to secure funds with which he promises to build an esoteric college in the Santa Cruz mountains. How well he is succeeding nobody knows, but he declares he has at least 500 converts in San Francisco among young men and women who will give their time and money to his scheme.

While in Boston Butler was associated with one Vidya Nyaka, alias Ella Clinton Ohmert. They engineered a scheme for extending their operations, and announced in January, 1889, that they were about to establish a college on the Pacific coast, where the necessary solitude could be found for the pursuit of their mystic studies. They issued a call for contributions to carry out the scheme and succeeded in collecting \$50,000 for its furtherance. Then exposure came and the pair left Boston. Butler is now working the same game in San Francisco.

A RUSH FROM RUSSIA.

Thousands of Hebrews Coming Where Hundreds Came Before.

NEW YORK, Sept. 27.—Unusual activity is prevailing among the Hebrew societies of this city because of the preparations for the increased flow of immigration which is about to pour in on this country from Russia on account of the continued persecution of the Jews there. It is estimated that where hundreds came before, thousands will soon be coming, and as most of these people are poor, their fellow countrymen feel that the demands upon them will be greater than has ever been known. All the news obtainable from Russia states that every Hebrew family which can possibly raise the price of steerage tickets for this country is leaving on account of the outrages that are visited on them by the Russian authorities. The committee which has charge of the Baron De Hirsch fund for this country, amounting to \$3,000,000 per month, will hold a meeting in about two weeks to consider this probable increase, and to take steps for sending the immigrants on to western points.

TO WIPE OUT THE WHITES.

Indians Looking for the Advent of a Great Medicine Man.

PITTSBURG, Sept. 27.—Capt. Trimbleton, of the Seventh United States cavalry, commandant at Fort Sill, passed through Pittsburg Thursday. He says the greatest Indian uprising of recent times is certainly to come soon. The Indians, he says, have got the idea that the great medicine man is coming to wipe out the whites, and to restore to them the ownership of the country.

The result is that they have entered with the fervor of fanatics upon a series of incantations and religious orgies. The 5,000 Indians about Fort Sill have renounced Christianity, and he is certain that in a short time somebody will pretend to be the expected great medicine man, and then the trouble will begin. He thinks all the United States garrisons should be doubled.

Price of a Wife.

BALTIMORE, Sept. 27.—John Siebrecht wants \$75,000 damages from William H. Evans, a wealthy marble importer, for alienating his wife's affections and inducing her to get a divorce so that he might marry her. The case presents many interesting features. The familiar character of the "Mutual Friend" is not wanted in the dramatic personae. The case was begun in the superior court yesterday. The parties in the suit are prominent in social circles.

The hall of the Palace of the Trocadero in Paris is supplied with fresh air from the old stone quarries or catacombs over which it is built. The old quarries are an immense cooling chamber, and the air is forced into the hall in a strong, dry, cool current.

A chicken will live from ten to twelve years. A story some time ago went the rounds of a 100-year-old goose. Though swans of 75 years old have been known, it is not likely that geese outlive them.

For the Farmer.

It is announced that Nutwood's service fee for 1891 will be \$1,000.

Much of the tobacco is worm-eaten. The prospect for a good crop is not very encouraging.—Georgetown Times.

Chas. A. Peters, of Fleming County, bought 246 head of two-year-old cattle for Montgomery parties at an average of \$3.35 per cwt.

John Peed, of Bourbon County, sold 20 head of cattle to Moses Kahn at 4¢. They averaged 1,500 pounds. Alf. Bill delivered 21 head to same party, that averaged 1,600 pounds, at 4¢.

Special Attraction.

Prof. W. L. Davidson and wife, daring aeronauts and champion rope-walkers of the world, will appear on the Germantown fair grounds Thursday and Friday, October 2nd and 3rd, fair week, giving two matchless balloon ascensions and parachute drops, two champion high rope performances in full view of the assembled multitude. Let everybody attend.

Geo. Wilson's Minstrels Coming.

Wilson's big minstrel company will be here next Thursday. Parties at a distance desiring to attend can have seats reserved by telegraph or postal card.

HARRY TAYLOR,
Manager Opera House.

The Lexington Transcript says that farm land in the Bluegrass country is rapidly decreasing in value to correspond with the low price of farm products, and cites some recent transactions in Fayette County real estate in proof. A farm of 300 acres, near South Elkhorn, sold last week at \$63 an acre, although it was bought only a short time ago at \$100 an acre, and is one of the best farms in Kentucky and contains fifty acres of fine walnut timber.

KENTUCKY'S taxable property this year amounts to \$512,000,000. The tax on this is 42¢ on the \$100, and gives the State a revenue of something like \$2,176,000. Besides, the State derives revenue on licenses, bank capital and surplus, valuation of railroads, from insurance, and other corporations. In 1889 the total revenue for general governmental purposes, schools, Sinking Fund, etc., reached \$4,391,764.14.

If the Constitutional convention should adopt a plan to tax the churches, cemeteries and charitable and educational institutions of the State, it would be a sure guarantee that the people would reject the Constitution containing such a clause.—Western Argus.

The members of the convention are not going to do such a foolish thing as to insert a clause of that character in the new Constitution.

What the convention should do is to provide every encouragement for churches and educational institutions. This last is what the people expect of their representatives.
